Why should I go, why should I care  
How could I know, it wasn't fair

What if I forget it all  
What if I say

Hello, I'm the one you've been looking for  
I know that it's true  
Lets go, I don't know if you're really sure  
I don't have a clue

I try to go, I try to care  
It didn't show, it wasn't fair

What if I forget it all  
What if I say

Hello, I'm the one you've been looking for  
I know that it's true  
Lets go, I don't know if you're really sure  
I don't have a clue

I try, I try, I try, I try  
To show, to show  
But I don't know

I try, I try, I try  
To show, to show  
But I don't know

Hello, I'm the one you've been looking for  
I know that its true  
Lets go, I don't know if you're really sure  
I don't have a clue

Say hello, I'm the one you've been looking for  
I know that its true  
And lets go, I don't know if you're really sure  
I don't have a clue
