Hitting the skyline
The loudness is breaking your voice
You never gave me a choice
Hitting a breakdown, a meltdown
I just can't let go
Of this increasing noise

So this is what I wanna do
Get rid of you

Do you get get get
Here's what happens when you stab me in the back
Take that
Take that
And I will let you know
I am nothing but your psychic heart attack
Take that
Take that

Facing your wake-up, a shake-up, I just can't resist
You've gotta know your place
Acting a hot shot, a slipknot
You think I would miss
A chance to smash your face?

So this is what I gotta do
Take care of you

Do you get get get
Here's what happens when you stab me in the back
Take that
Take that
And I will let you know
I am nothing but your psychic heart attack
Take that
Take that

So if this is my revenge then I am coming through
I will take you
I will break you down
Oh, give me one more chance when nightmares are

coming true
I will take you
And I will break you down

Do you get get get
Here's what happens when you stab me in the...

Do you get get get
Here's what happens when you stab me in the back
Take that
Take that
And I will let you know
I am nothing but your psychic heart attack
Take that
Take that
