Let's take a walk
Ease your mind
May your soul speak
The things you'd rather hide

Take a look
See what we'll find
Open up to this world
You've left behind

Take it off
The mask that hides
Who you are
Your artifice disguise

This isn't you
Stop the lies
You've lost yourself
Before the real you dies

How do you live
In you parallel place
Never feeling
A real world embrace

You're a conceiver
Of an artificial life
Ruling all through
False reality
You're a believer
In your self-inflicted strife
Prisoner to your world's reality

Synthetic selection
Nothing natural anymore
Drawn to imperfection
Your mask you adore
Feeding this addiction
Hypnotically entwined
Obviously smitten
To your ties that bind
