I'm not the only one who's been
Thinking the way I've been
Things got to change, things got to change
If they don't we'll all be dead

We've got to watch and listen
To those things we aren't told
Our lives seem dictated
By those who we don't know
I'm telling you, I'm telling you
There's a cold wind coming soon

Break free
We've go to break free
We've go to break free
We've go to break free, yeah

Or else your life is ruined
Or else your life is ruined
Or else your life is ruined
Or else your life is ruined

Break free from the one that binds you
Break free from the dark
Break free from the one that confines you
Break free from the dark

I'm not the only one who's been
Thinking the way I've been
Things got to change, things got to change
If they don't we'll all be dead, break free
