Crack my skull inside my head once alive now  
braindead  
Stick a needle in my skin, I can't feel a fucking thing  
I can't control the way I have lived through  
The horror the terror the murders

Tap the vein and let it flow, slow  
Inside my heart, cold and hollow  
I feel no remorse  
My heart beats but I think I'm deceased

Braindead, time to pull the plug  
Braindead, I feel no love  
Braindead, you've stopped breathin'  
Braindead, I'm hunting humans this season
