Let me, let me know what makes you happy
And I'll do it over, over and over again

Let me know just how you love me
And we'll spin around again in this field of flowers
we're in

I wish to quote from whitman now
To show the way I feel, I feel about you
Oh about you
Because it's a "subtle electric fire" you light in me
Every time I see you
So let's dance again in this field of flowers we're in

These lyrics are so frivolous they really have no
meaning
But I wrote them for you and anywhere I would be with
you
No matter where, but for now we're here
So let's spin around again in this field of flowers we're
in

Let's spin again in this field of flowers we're in
