Salvation is a crippled bitch  
Satisfaction from murdering  
Evil voices made me do it  
Devil made me want it

Priest he had to die  
So did that family of five  
No way to stop what you cannot find  
No way to kill, it never dies

Evil  
Evil  
Evil  
Evil

Push me too far, I might just snap  
Blood shot eyes and a knife in my hand  
Pissed off at society  
Sick of them, looking down at me

So I went to school with a loaded Uzi  
And I made sure that no one survived  
No way to stop what you cannot find  
No way to kill, it never dies

Evil  
Evil  
Evil  
Evil

It never dies  
It never dies  
It never dies  
It never dies  
It's in us

Evil
