I'm gonna poison the population
Gonna plan myself an assassination
On the hunt to kill again
I plan to butcher the planet

I'm like the cold hand of death
Reaching out to snatch the next
And when I'm through with them
Motherfucker you're the next fucking victim

In this necrosociety
In my necrosociety

I'll turn you all into blood sucking freaks
Those who won't turn meat
Feed to bleed to kill to live to die afraid
Of what I can do to you

The savior of mankind
The cause of world wide homicide
Fall to your knees and pray to me
My knife will set you free

In this necrosociety
In my necrosociety

I'm gonna murder everyone on earth
And when your dead I'm gonna kill myself

Murder mankind
Murder mankind

Murder mankind
Murder mankind
Murder mankind
