I cut your throat, wide, opening  
A hole in your neck  
Your blood sprays my skin  
Warm and wet  
You can't feel your heart beating  
Scream no one is listening  
I cut your tongue from your mouth

Dying you feel yourself slip away  
Your dead body will be left, unburied  
No one will find you  
Dead

All is quiet as I force my fist down  
Your cut throat  
Grabinf tendons and veins  
I pull your insides out  
Through your lipless mouth  
Your stiff body is cold and still

Dying you feel yourself slip away  
Your dead body will be left, unburied  
No one will find you  
Dead

Violent

Silence

Dying you feel yourself slip away  
Your dead body will be left, unburied  
No one will find you  
Dead

Haphazardly I remove your spleen  
And your liver  
There is much blood  
Eyes have been removed  
While you were still alive  
Now I tear your flesh, I am ripping your skin

Dying you feel yourself slip away

Your dead body will be left, unburied  
No one will find you  
Dead

Fingerless hands, clenched - I continue  
To dissect

Blood spurting from  
Punctured flesh  
Your naked body stripped of skin  
Soon you will rotten  
Insects infest your flesh
