Our Story won't end tonight
I won't let you go
I'll stay by your side in the dark and light
So don't give up tonight

Don't let me go, go, go
Just keep holding on tight
Because I'll never let you go
I'll pull you up when you are down

And I'll be your savior when you are not found
Our Story won't end tonight
Just keep on holding on to me tight
I won't let you go

And I won't let you talk about leaving me behind
I'll keep holding you close
I won't let you go
Don't you see you are my perfect dream

You're much more than the world has seen
You're my everything
So don't leave me here tonight
Just wait with me and keep holding on tight

Because they're searching for us
They're looking around every bend
Seeking for survivors so don't choke up now
Because I won't let you go

Breath in my soul and shield your eyes
The fire around us is all just lies
Breath in my soul and shield your eyes
I won't ever let you die

So let me hug the burns away
And kiss away the pains of the day
Our Story won't end tonight
You're still young and got years to go

So I'm begging you just stay

Don't let me go, go, go
Because you're the perfection in me
You're the only light I see

You're the axis that makes the world spin
And you're my every memory
So don't give up breathing
Just breath in my soul and shield your eyes

They're looking around every bend
Seeking for survivors so don't choke up now
Because I won't let you go
Breath in my soul and shield your eyes

The fire around us is all just lies
Breath in my soul and shield your eyes
I won't ever let you die
So let me hug the burns away

And kiss away the pains of the day
I won't let our Story End tonight
But I see your lungs can't take much more
I can see heaven's doors through your eyes

And you smile sweetly back at me
While I scream that God isn't always so kind
You cough into shaking hands
And I can see this is Death's sign

I won't let you go
So why is your hand losing grip in mine?
They're looking around every bend
Seeking for survivors so don't choke up now

Because I won't let you go
Breath in my soul and shield your eyes
The fire around us is all just lies
Breath in my soul and shield your eyes

I won't ever let you die
So let me hug the burns away
And kiss away the pains of the day
Our Story Won't End Tonight

Even while I lean my head against yours
Vision's blurring and lungs burning
Together our soul's shall be soaring
As the pain fades away

Binding to the physical world is gone this day
And it's all gone Tonight

But our souls shall be free into the light
Until then just breath in my soul and shield your eyes

The fire around us is all just lies
Breath in my soul and shield your eyes
I won't ever let you die
Until I say good bye
