There's somethings I just didn't tell you but I wanna tell  
you now  
Somethings you wont figure out others you wont like.  
Sometimes you just need to think about us and what  
you did to me.  
Sometimes there's things I wanna say but I keep to  
myself

(Chours) Oh there is just that one thing I wish I could tell  
you but I don't I keep it  
To myself because I know there gunna be mean oh...  
sometime I like you I hate you you make me wanna  
puke somethings

There is your answer to the things you wanted to know I  
can't tell you anymore but I will just say that you are a  
jerk.  
You know oh you know

(CHOURS) Oh there is just that one thing I wish I could  
tell you but I don't I keep it  
To myself because I know there gunna be mean oh...  
sometime I like you I hate you you make me wanna  
puke somethings

Lets just say you take me away. you took her now you  
know what I think of u know you know so baby think  
bout that next time  
I know u want me back but guess what too bad
