

Six Pence None The Richer "Easy To Ignore"

You and the moon are a beautiful sight to me
The stars in your eyes make it really hard to see you
A night in the sun is all I really want
You and me with the best of both for once

Oh and night breaks
My heart could not ache
Anymore
Am I that easy to ignore?

You let your song blow right through me
Your mighty intellect makes you mighty hard to see
Will there come a time for me to be
More to you, more to me?

Oh and night breaks
My heart could not ache
Anymore
Am I that easy to ignore?

My heart could not ache
Anymore
Am I that easy to ignore?

You and the moon are a beautiful sight to me
