

Six Pence None The Richer "Radio"

Visit "[Radio](#)" on MotoLyrics.com

I remember all the roads together
That we drove in el camino weather
When that song started playing again
we were singing it to the wind

All the words they rang so true
They were written for me and you
We had an anthem, we had a creed
We were all that we would ever need

And now the radio plays that song
I donâ€™t know if I can sing along
I donâ€™t know if I can sing along
And make it through

I remember when we drove so far
They were playing in a roadside bar
And you jumped up when they played our tune
They were playing it for me and you

I remember when we drove all night
I took you home in the morning light
You my anthem, you my creed
You were all that I would ever need

And now the radio plays that song
I donâ€™t know if I can sing along
Am I ever gonna make it through
Am I ever gonna be with you

Cause when the radio plays that song
Iâ€™m left alone with nowhere to go
Am I ever gonna make it through
Am I ever gonna be with you
