(Intro)

Uh oh, thought we was forever...

(Verse 1)

A while back is when we first met
My freshman year of high school to be exact
You was a senior and ya swag was all that
Went to holla at cha and my mind went blink
Years later we caught up again
You requested me as your facebook friend, miracles
happen here we go again
Now I felt like we was go love to the end
Gave you my number then we came friends
Then next lovers, no one above us
Emotions rolling big time like a hummer
I'd been thinking bout you all summer
Met your family, went to the movies
Even playfighting amused me 'got some bad info left
my heart bruising
Then things changed... then things changed

(Chorus)

Can't believe I faced heartbreak again,
Thought We Was Forever but even forever has a end
You Was very special my friend, now we split up like a
dividiend,
Can't believe my heart was left in pieces,
Emotions fed up and I was left speechless,
But somehow I still love u girl, Placed no one above ya,
Now my heart on cruthchers

(Verse 2)

Baby you was everything to me chick
Even a blind man could see it
Us not together oh I can't believe it,
Success with your heart no I didn't acheive it
I was thinking bout you, you was thinking bout me
Thinking bout us and were we go be
Opened up my eyes realized it was a dream
Well what a fantasy, what a fantasy
Heard rumors bout you in these streets

They said you was loving more than just me
It split us apart and now it's just me
This pain inside is tougher than rugby
Now everytime I see ya
You prolly go mug me, but please just hug me
I beg u to hold me, better yet just love me
Lets just make up, oh I miss your touch... I miss your
touch... yeahh

(Chorus)

Can't believe I faced heartbreak again,
Thought We Was Forever but even forever has a end
You Was very special my friend, now we split up like a
dividiend,
Can't believe my heart was left in pieces,
Emotions fed up and I was left speechless,
But somehow I still love u girl, Placed no one above ya,
Now my heart on cruthchers

(Verse 3)

S**t happens in life for a reason
I was in love with your heart not just your features
I believed in us more than jesus
Even my bestie can't believe this
You say I didn't love ya like you know you're right
But I always bragged about you on social sites
But what's done in the dark always come to light...

So f**k us together, f**k this relationship. You crack me
up inside
Damn you a trip, can't believe you filled my head with
that bulls**t
The way I feel I wanna load up a full clip
Put it to my head squeeze the trigger yo...
You know my life is f**ked up you left me in the
road 'So
now it's like F**k ya
This is how it goes... Thought you was go my wifey
now I think u barely liked me,
Now it's my nuts in your face yeah like these!

(Chorus)

Can't believe I faced heartbreak again,
Thought We Was Forever but even forever has a end
You Was very special my friend, now we split up like a
dividiend,
Can't believe my heart was left in pieces,
Emotions fed up and I was left speechless,
But somehow I still love u girl, Placed no one above ya,
Now my heart on cruthchers

(Outro)

Thought you was go really be there for me,
then I realized it was just a dream,
For You my emotions was open like the ocean but your
love back was just a
Stream, but I guess our emotions will be blown away
forever ooh what a breeze! I thought we was forever...
Forever!
