It's the way she looks  
The way she laughs  
The way her eyes meet mine  
It's the way she talks  
The way she love  
The way she's one of a kind

I was told to keep away  
My heart keep telling me to stay

It's gonna be you and me against the world  
And I just won't sleep until you realize  
That I'm the only one that you need tonight  
So, baby just take a chance  
And give it a... try

It's the way she smiles  
The way she cries  
When the world is out of place  
It's the way her hand falls into mine  
It's the way her lips ummm

I was told to stay away  
But darling I just wanted to say

It's gonna be you and me against the world  
And I just won't sleep until you realize  
That I'm the only one that you need tonight  
So, baby just take a chance  
And give it a try

Give it a try  
Give it try  
Give it a try to see your self with someone else like me  
Baby give it a try,  
Just leave the world behind, and open your mind to  
dream,  
Dream...

Oh you and me against the world  
And I just won't sleep until you ohhh memorize

It's gonna be you and me against the world  
And I just won't sleep until you realize  
That I'm the only one that you need tonight  
So, baby just take a chance  
And give it a try

It's gonna be you and me against the world  
And I just won't sleep until you realize  
That I'm the only one that you need tonight  
So, baby just take a chance  
And give it a... try
