"Better Off Dead"

I don't know what I did
To put this shame on me
I praised you all my life
Now I'm losin faith
To you I'm just a face
When I die forever

We don't look at light
Just wanna fall
Hard to live a life
Your far to gone
In this world so wong
Your better off dead

The clock is at an end
God is judging you
I feel so left behind
As I flee from light
It seems I'm I'm dead inide
As I took my life

Locked inside my head
I'm better off dead
Hard to live a life
Your far to gone
Don't know when it started
Please help me lord

A leap of faith
Or a leap for satan
A leap for light
Or a trip to hell
