Calling off this way of life
I'll push his word aside
Please don't preach to me
I've heard it all befor

What I'd to put be put here
I didn't stab you with a spear
I'll keep looking if I care
But until then... fuck the world for what it it did

Every night of night of my life
I'll stand my ground
You took my dad and my life
Why fight for you

Don't waste my time
Don't drain my life
All hope is gone
You took the one
Who helped me move alone
The one I should have loved

I'm not preachiing words of hate
I'm just trying to say
You left my world alone
You took it all from me
I would love to be free
But why should I beleive
