Love is a beautiful rose
Readready about to bloom
Love is a holy ghost
Always next to
Love is here I'm here for you

Put down your weapons
Wormth the frozen
Purify your minds
And no one crys

It may be the hardest thing
But it's worth it in the end
Forget your hatred
And help the weekend

Love is the person
That wants to speak to you
Love is what jesus did
Just for you

Love is here I'm here for you

Put down your weapons
Wormth the frozen
Purify your minds
And no one crys

It may be the hardest thing
But it's worth it in the end
Forget your hatred
And help the weekend
