(Chorus)

It was love at the first sight  
There's someone inside my heart

There was magic in the air  
'cause of you it's still there

You gave me the key of life  
That's why you're a part of mine

Treat me right and never wrong  
Couldn't love you anymore

Ooh... thank God that I met you  
Everything seems to be so right

Ooh... and I say 'I thank you'  
For the joy and happiness

What could I do without you?  
How would I work it out?

I'm talking about real love

(Chorus)

Ooh... I found my endless love  
Doesn't matter where you are (baby)

Ooh... no one can take your place  
'cause its all about trust (yes)

What could I do without you?  
How would I work it out?

I'm talking about real love

(Chorus)
