Mr. Nobody, give me your body
Mister Nobody, I want your body
I want your everything tonight, alright

When I saw you there my heart stood still
Baby it was such a thrill, being next to you

Didn't know what I could say to you
thought so much but had no clue, baby where are you?

No one will ever stop me from loving you
No one will change my point of view

(Chorus)

Mister Nobody, I want your body
I want your everything tonight

Mister Nobody, I want your body
Tell me if everything's alright

Have you to thing about you all the time
Baby you're still on my mind, miss you deep inside

Mister Nobody where are you now
Don't know what life's all about, oh it ain't no doubt

No one will ever stop me from loving you
No one will change my point of view

(Chorus)

No one will ever stop me from loving you
No one will change my point of view (yeah)

Mister Nobody can't you see
Mister Nobody you and me, 'till the end of time

(Chorus)
