Well as a matter of fact I like to hit you from the back  
with my bozack

Verse One: {Tec-9

Baby girl shake that thang a lil' deeper

Saw the numbers on my beeper now you

Know that I'm a keep her sneak around on the

East side border town baby mama drama boy it's still  
goin'

Down give me the numbers I'm gone put it on lock

You so fine when you rock it girl you makin' me hot

Now stop it, you need to stop it

I see you when you pop it

That must be jelly cuz jam don't shake like that

Stacked up in the back pork chops thighs make ya  
crack

To pieces temperature increases makes me

Wanna holla mami you killin' me softly

Toss me another cup of water

I ain't givin' up a quarter to you shake it a lil' harder

Gin and Juice is the drink that you like to drink

Take one drink to the body now it's time to get busy

Don't shake it to hard cuz you might get stank

To the back baby girl cuz I know you want to get jiggy

It's an all night party and nobody has to go

Shake shake it to you break it

Back it up a lil' more

Shake shake it to you break it

Back it up a lil' more

Chorus:

Shake shake that thang ya bounce bounce back it up

Girl you hurtin' when you workin' won't you twerk it on  
up

Shake shake that thang ya bounce bounce back it up

Girl you hurtin' when you workin' won't you twerk it on  
up

Verse Two: {Big Al

Don't you stop that ain't that cold

Girl I can watch ya wobble on it to my eyes get swoll

See I like it when you twerkin' cuz you workin' with  
somethin'

Give me a call I break ya off gram and twerk for nothin'

I ain't hurtin' or nothin' but with yo twerk got me peepin'

I hopin' we can speak about some freakin' body  
squekin'

See we can get away from the worries of the world

I can lay it down and have you tellin' all yo girls

Cuz I be strokin' like my name is Clearance Carter

I done banged boo-koo broads and gave 'em a nann  
quarter

Excuse me mister but yo daughter is a cold stone freak  
and

You can put that in that Sunday mornin' sermon ya  
freak and

Check the levels my reach can be so damn high

She said she like it all night well baby so do I

Bet I can slang it to ya like ya never had it done

Off tops you give me props havin' ya screamin' number  
one

Some think it's an argument some think it's a shame

But everything I spit is real yet you think it's a game

In a minute we can exchange our numbers and names

But as of now I watch you break it and do yo thang

Chorus: {3x

Verse Three: {Lil' Tee

Say baby girl won't ya break a player off

See we came here tonight to let the good times roll

I can't be lovin' them broads dog the game is cold and

She back it up, she got a playa head hurtin' so keep

Shakin' that thang, bouncin' that thang, twerkin' that thang

I ain't Usher

I ain't lovin' 'em but she makin' me think and she makin' me think

She want the whole crew and if not she shouldn't do the things she do

I said I love what you do when you do it when you do

When you do what you do to me well all right
