Why have you moved the furniture?

Why is your case in the hall?

Where have you taken the children?

What's all this drama for?

I know I've been careless

But this is reckless

Yes I've been careless

But this is reckless

So why don't we just sit down?

Take off you coat, let me make us a drink

There's no need for a scene

You're being silly, acting this way

More than we've ever been.

I know I've been careless

But this is reckless

Yes I've been careless

But this is reckless

I don't want to wreck our love

But I just want to rectify it.

INSTRUMENTAL

I know I've been careless

But this is reckless
Yes I've been careless
But this is reckless
I don't want to wreck our love
I just want to rectify it.
Take off you coat, let me make us a drink
There's no need for a scene
You're being silly, acting this way
More than we've ever been.
I know I've been careless
But this is reckless
Yes I've been careless
But this is reckless
I've been careless, reckless
Careless, reckless
(Repeat and fade)
