If you're not busy being born, you must be busy dying  
Standing up is hard to do when you live a life of lying  
If you're not being born, you must be busy dying  
Learn to stand up on your own, it's time you best start  
trying

If you're not busy being born, you must be busy dying  
When the truth knocks at your door, your consequence  
is crying  
If you're not being born, you must be busy dying  
When the truth done got you down, then get on with  
your dying

Dying  
Dying  
Dying

Crippled sunshine dogleg blues and all dogs have their  
day  
Sing old tunes and wash these blues it's calm beneath  
these waves  
Mor important how we take our fate than what it is...  
How we live  
Busy Dying  
Busy Dying

All this time I watch you die  
I let you down you waste my time  
????????????????????  
????????????????????

Don't you wanna drink the wine you'll find it dying on  
the vine  
Tonight we put it on the line busy livin' busy dyin'
