DISTANCE

I've been away  
Gone an eternity  
But I'm on my own  
Left the keys to the house  
By the back door  
In an old clay jar  
These are my last minutes  
On a long distance call  
Hungry and tired  
But I know  
I know that it won't be long  
There's been miles and towns  
In a dirty van  
Livin' on the road  
Been feedin myself  
On a dollar bill  
Sleepin on a stranger's floor  
These are my last minutes  
On a long distance call  
Hungry and tired  
But I know  
I know that it won't be long
