Yeah I've been with you before...

Shall we call it our private treasure in the rumor den  
All together are songs of pleasure and indulgences

And we break it down like this  
Like this  
Like this  
Like this

We go to the bar get in my car  
Where we've never been  
And despite it all we'll connect ours  
In the rumor den

Hey

And we break it down like this  
Like this  
Like this  
Like this

In the rumor den

Yeah I've been with you before  
And I'll be with you again

I said

Yeah I've been with you before  
And I'll be with you again

In the rumor den  
I will be with you again
