I've heard all about it  
Never had found it  
I walked the line and danced all around it  
But my heart starts poundin'  
And I'm pretty sure that I know why  
Cause I am like a bird in a windstorm  
Talkin' 'bout things that I'm fellin' more and more  
That I never felt before

Chorus:

I don't know much about love  
But there's just something about you  
I don't have pretty words, but I'm pretty sure that  
I've got this thing called love  
And it's all about  
Even if I say it simple, it's still true  
I love you

I've been talkin' long as I've been walkin'  
I'm better at one, and I've done it more often  
I run without stoppin'  
But I can't say what's on my mind  
So here I go-Steppin' into thin air  
I've got faith, but I'm still a little bit scared  
It's kinda like truth or dare

Chorus:

I don't know much about love  
But there's just something about you  
I don't have pretty words, but I'm pretty sure that  
I've got this thing called love  
And it's all about  
Even if I say it simple, it's still true  
I love you

Ther it is, I've gone and said it  
Thought I would, but I don't regret it  
I'm not sure where this is headed  
But I just had to let it out  
I've got this thing they call love  
And it's all about you And I'm gonna say it simple, baby

Chorus:

I don't know much about love

But there's just something about you

I don't have pretty words, but I'm pretty sure that

I've got this thing called love

And it's all about

Even if I say it simple, it's still true

I love you
