Black light and break dust mingle in the air  
Far out on a country road ships are everywhere  
Now I scream wicked dream  
How is this occasion?  
I am given to the sky tonight...

VISITATION

Caged up then tied down to the silver table  
I would move if I could, if only I was able  
For what need you take my seed  
I'm violated  
Taken off a country road tonight...

VISITATION

Alright  
Take me away  
I have seen them telepathic nighttime visions  
I have seen them telepathic nighttime visions

Above the earth the atmosphere has gone to sleep  
tonight  
Awake in fields to find your soul revealed beneath the  
lights  
It's a visitation

It's a visitation

I have seen them telepathic nighttime visions  
I have seen them telepathic nighttime visions
