Fuck your pain away.
It's what you had to do,
to fall on through to emotion.

Fuck your pain away.
You slipped on through,
I felt in you the commotion.

Hey, I wanna go home.
Don't wanna be here alone.
Yeah, I really can't stay.

Oh, I really ought to go,
Oh, I really can't stay.
Oh, this pain in my head,
No, it won't go away.
Oh, I really ought to go,
got to find my own way.
But this fear and this dread,
says that I must obey,
AHHH! Ahhhh.

Fuck your pain away
I saw in you,
I fell on through to devotion.

Hey, I wanna go home.
Don't wanna be here alone.
Yeah, I really can't stay.

Oh, I really ought to go,
Oh, I really can't stay.
Ah, this pain in my head,
No, it won't go away.
Oh, I really ought to go,
got to find my own way.
But this fear and this dread,
says that I must obey,
AHHH! Ohhh.

So if you say you wanna stay the night, then feel free,

and if you say wanna take the flight to feel me.
But if you change your mind and go away.
then come what may, but know that I'll be by your side.

Yeah, I really ought to go,
Oh, I really can't stay.
Oh, this pain in my head,
No, it won't go away.
Oh, I really ought to go,
got to find my own way.
But this fear and this dread,
says that I must obey,
AHHH! Ohhh.
