You can't play here.
You can't.
You can't stay here.
You sound so dissonant.

You know your face,
it don't sit right.
Get out your dukes man,
let's take it outside.

Say say say say
say say say say
no no no no
It's easy.
Say say say say
say say say say
no no no no
It's easy.

I hear you faking, and I can see.
You're compensating.
You're trying to get me.

I could taste your fear,
as you kissed my face.
Judas' heart I am aware.

Say say say say
say say say say
no no no no
It's easy
Say say say say no
Say say say say, say (say say say say, say say say say)
no no no no
It's easy
Say say say say no

When I'm wasted,
You sucker punched me.
So complacent,
I know I know I know.

You can't take it.
Uh oh, uh oh, uh oh.

So now you'll try,
you'll try to take her away.

Say say say say
say say say say
no no no no
It's easy
Say say say say no
Say say say say say (say say say say, say say say say)
no no no no
It's easy
Say say say say no

Huah!
