[Hook]

If rappers can't, push me as high as I can
Push myself they not inspired
Rappers can't, push me as high as I can
Push myself they not inspire me
From this song on, you about to be swept away
Cause yesterday is long gone
I know this love can't be wrong

Cannibalistic mind, robotic body parts supply
Praying to eating salami the day that biggy died
Black mavado watch, color of a free slave
Cemetery bound, bury me beneath the 3 grave
Cup full of blood, inherited from the dalai lama
The war machine seeking metal world peace comers
Heterosexual woman filling my genesis
Putting herpes on shot glasses for my enemies
Intelligence of a broken chemical alter burst
Drown it in gasal lava, put it inside her purse
Fire like mob dealer, killers the google chrome
Erased you like Obama, do... loaf
James brown turning my head when I die
View rappers in the same manners republicans view
Allah
Listening to illmatic, capture the rhyme, poe and 5'9"
Greatest rappers alive, ah

[Hook]

If rappers can't, push me as high as I can
Push myself they not inspired
Rappers can't, push me as high as I can
Push myself they not inspire me
From this song on, you about to be swept away
Cause yesterday is long gone
I know this love can't be wrong

I don't look up to rappers so I don't get inspired
Body rums they liars, how can you light up what's fire
Aspire, to be what's flier, till he gets higher
Of the messiah, denial, soon will admire
Cat, I do the spending, I don't get sent back to the lab

I spazz
I do the sendant, just like the school of pin bin
Doing cruel shit to instruments
Do been a fool since an infant
Interesting, I'm crucial like a diabetic's insulin
Stock the cake like interment
You in... loose some, that's your motto, you dumb
That's my motto, that's why I ain't loose once
I'm the truth son, I'm your daddy boy
Ghost rider, call me platy boy
Orange and black challenger like the... boy
Heavens to murkatroy, if judy ain't birth a boy
Put here for a purpose, make the whole fucking earth
destroy

Rappers can't, rappers can't,
Rappers can't, rappers can't
Rappers can't, rappers can't
You know what our motto is?
Haters will get caught
We the shit, fool
Rappers can't, rappers can't
Coco the monster
Rappers can't, rappers can't
Rappers can't, push me as high as I can
Push myself they not inspire me.
