I heard all about it, never had found it
I walked the line and danced all around it
My heart starts poundin'
And I'm pretty sure that I know why

'Cause here I am like a bird in a windstorm
Talkin' 'bout things that I'm feelin' more and more
That I never felt before

I don't know much about love
But there's just something about you
I don't have pretty words
But I'm pretty sure that

I got this thing they call love
And it's all about you
Even if I say it simple, it's still true
I love you

I've been talkin' long as I've been walkin'
I'm better at one and I've done it more often
I run without stoppin'
But I can't say what's on my mind

So here I go steppin' into thin air
I've got faith, but I'm still a little bit scared
It's kinda like truth or dare

I don't know much about love
But there's just something about you
I don't have pretty words
But I'm pretty sure that

I got this thing they call love
And it's all about you
Even if I say it simple, it's still true
I love you

There it is, I've gone and said it
Thought I would, but I don't regret it
I'm not sure where this is headed
But I just had to let it out

I've got this thing that they call love
And it's all about you
And I'm gonna say it simple, baby

I don't know much about love
But there's just something about you
I don't have pretty words
But I'm pretty sure that

I got this thing they call love
And it's all about you
Even if I say it simple, it's still true
I love you, I love you

Oh oh yeah yeah
I've got this thing that they call love
And it's all about you
Yeah, yeah
