Black eyes and blue

All the view is blue

All the view is blue like you and all the way to the sea

All the view is blue like you and all the way to the sea

You climb on top of the tree, on top of me

All the view is blue like you and all the way to the sea

Black eyes and blue

Black eyes and blue

All the view is blue

All the view is blue like you and all the way to the sea

All the view is blue like you and all the way to the sea

You climb on top of the tree, on top of me

All the view is blue like you and all the way to the sea

Black eyes and blue

Black eyes and blue
