Baby the damn truth kills crazy you and I wasn't real  
take me away from the  
Field maybe you don't understand how I feel.

Girl leave me (I need to be on my own)  
Girl leave me (I'm not pickin' up the phone)  
Girl leave me (Cuz it'll never be so)  
Girl leave me (Baby we were told)  
Girl leave me (I'm goin' back home)  
Girl leave me (I'm not tryna be cold)  
Girl leave me (But you need to know)  
You need to leave me alone...

Foolish but unmistakable feelings I had are fadin' the  
only thing you and I  
Are makin' is grudges and I don't wanna end up hatin'  
you but deep down  
There's no escapin' cuz I love you but were really takin'  
this to far where  
We know it's blaten it's not gonna work cuz our hearts  
are breakin' just  
Sometimes there's not a verse that can explain a  
position and babe I've  
Learnt crazy but we won't work even when I say I love  
you deep down it's  
Hurts but what's worst is those three big words and the  
decision of  
Position which don't concern what I'm doing wrong is  
just my feelings and  
It's nuts cuz I really care about hers you and I were  
never gonna work if  
You want we can have a word but it'll burn...

Girl leave me (I need to be on my own)  
Girl leave me (I'm not pickin' up the phone)  
Girl leave me (Cuz it'll never be so)  
Girl leave me (Baby we were told)  
Girl leave me (I'm goin' back home)  
Girl leave me (I'm not tryna be cold)  
Girl leave me (but you need to know)  
You need to leave me alone...

Face it it's the way life goes why cry fate took us to the  
end of the road  
Our problems can not be mended or solved you know  
for a fact our attempts  
Got close But P.s I miss you loads just not enough for  
true love to be  
Shown hold up you still got a lot to take note I'm not  
tryna kill you slowly  
See sometimes there's not a choice but from the  
bottom of my heart I hear  
This voice sayin' baby please you don't need me here I  
got a heart and your  
Always near close your eyes don't waste your tears I'm  
not like the rest  
That's the wrong idea sometimes I think I see you I got  
to touch you but you  
Disappear you've got a lot so cast your steer to the  
right direction away  
From here...

It's wrong it's tight everybody in the club with me it's  
right that girl  
Everybody in the shit with me and I want it so bad and I  
need you on track  
Girl track girl?

Girl leave me (I need to be on my own)  
Girl leave me (I'm not pickin' up the phone)  
Girl leave me (Cuz it'll never be so)  
Girl leave me (Baby we were told)  
Girl leave me (I'm goin' back home)  
Girl leave me (I'm not tryna be cold)  
Girl leave me (But you need to know)  
You need to leave me alone...
