"Despair - Runaway From Silence"

I am the one wishing for you
And for your sorrow
Your tears are my joy
My reason to be
When you're down I am alive
When you're down I am the one
If you can't face the truth
I'll drive you insane

The flames of your inner fire
Roughly burnt my skin
Your hands lit up the blaze
A touch of sadism
In your mouth and in your voice
A red color in your eyes
Reflecting my disease
My comforting pain

Don't waste your time I am the one you are needing
Can't you see that in your arms I am bleeding
Take me and use me we'll save yourself together
Run away from the silence that was set forever

Give me slavery to release you
To release your mind
I got a crave for ache
Want you to be my guest
I am dripping on the floor
And I am starving to life
On my back on my face
You engrave your faith

Take my hand
And hold it on
I'll bring you high
Just to forget
Give it up
And follow me
The pleasure grows
Just as your will
