Ahh officer, doh trouble him
Ah, jus, ah, one draw yuh know, officer
Yea ah, yea ah, hear, yah

We got it right here
We smokin' marijuana like we jus don't care
We got it right here
So blaze up the chalice with the ganja, yuh hear

We got it right here
We smokin' marijuana and we jus don't care
We got it right here
So blaze up the chalice with the ganja

Herbs by the parcel, herbs in the bunch
Even if it ah small morsel, the vibes still punch
Makes me so humble, no idiot stunt
Good enough for the chalice and the blunt

We love the inspiration that come out of it
All my brethren requestin' some out of it
We got so much we got so much could never run out of
it
So pass it around take ah whif or a splif

We got it right here
We smokin' marijuana like we jus don't care
We got it right here
So blaze up the chalice with the ganja, yuh hear

We got it right here
Smokin' marijuana and we jus don't care
We got it right here
So blaze up the chalice with the ganja

Because it clean and ready so fill it up
Even if it is ah splif ghetto youth so buil it up
The whole world like it, so watch yuh grill it up
Good sets from west it ah the best so bring it up

Ahh, smokin' til mi eyes dem red
Promote the marijuana that's what I said

Marijuana feed me clothes me and school me
You cyar fool me, gimme the good herb and spread, yo

We got it right here
We smokin' marijuana like we jus don't care
We got it right here
So blaze up the chalice with the ganja, yuh hear

We got it right here
We smokin' marijuana like we jus don't care
We got it right here
So blaze up the chalice with the ganja

Smokin' herbs with my friends and my neighbors
It was created by the most high creator
We use it offer praise onto the savior
Marijuana it make we get good behavior

So why is it they don't like it?
Herb is the healing of the nation
So tell me why you fight it?
Jus gimme the chalice mek me light it
And all the vision there is to be we have to sight it

We got it right here
We smokin' marijuana like we jus don't care
We got it right here
So blaze up the chalice with the ganja, yuh hear

We got it right here
We smokin' marijuana and we jus don't care
