Woo, how good and how excellent
is thy name throughout the earth
Emperor Selassie I huh, Conquering Lion, Mt Ion

It's a beautiful day the sun is shining
What do you say love everytime
I pray for your kindness
What inspiration Jah's meditation
people from all nation
hail Selassie I the Royal Highness
Inhale the fresh air the breeze that blowing
No one disturbing you in the land of love yes
Show me you care for others out there
protect yourself Jah love we had found it

CHORUS

I'm free from all thoes trouble in the world
my life preserve and I live in Africa
Come and see the land of the love and the living
it's the foundation for all your ancestors
I'm free from all thoes trouble in the world
my life preserve and I live in Africa
Come and see the land of the love and the living
it's the foundation ancient Aithiopia

For a thousand years of dirty slavery
no one can pay me? They torture and jail me
And all thoes years slave masters take me
they still can't break me 'caus I'm prevailing
Distant lands and distant seas
we've all been scattered never silent
They don't know stranger no
face the thrown King Selassie I we hail
So come away children turn away from evil
Because Jah has surely bless you
and give you length of days
children come away children turn away from evil
Jah has surely bless us
and give you length of days

CHORUS

I'm free from all thoes trouble in the world

my life preserve and I live in Africa
Come and see the land of the love and the living
it's the foundation for all your ancestors
I'm free from all thoes troubles in the world
life preserve I live in aye aye aye yea yea yea
tada tada da

It's a beautiful day the sun is shining
What do you say love everytime
