Luciano:

Oh oh, wake up.
Wake up, wake up and live.
You got to, I got to, oh no
We got to yeah
In this troubled world
With so much on our minds
In this troubling time
Wake up and live mankind
In this troubled world
With so much on their minds
In this troubling time
It's time to live up mankind
Jah gave us this world for us to wake up and live
And share the world you got to wake up and give

Sizzla:

This is what it is
Truly, truly it is a must for us to love and live in one
accord sing
Don't you go on ruling her, lonely.
Have yourself so then you got caught in so many
things, yow

Luciano:

This get the time, now in the hour
We've got the mind, we've got the power
Jah blessed I, that I and I could discover
Come along let's unite and shake Babylon asunder

Sizzla:

We give thanks for the bringing forth of I
Good and responsible thought.
Praise Jah all your life long, oh yeh
With this doing righteousness
No one could ever go lost
Yet we all know
And receive the soul, it shall be given
It is for I and I to go and ask
Never give your energy unto the evilous practices
This is an impartial rite

Luciano:

Rise up

Jah gave us this world for us to live and unite

So whether if you're black or if you're yellow or white

One Jah, one God, one aim, one destiny

Clean up your heart and soul

Set your spirit free

Sizzla:

Speaking of righteousness

As the river flow the chant

One love black people

That is the way to rid the fault

Not until the very cripple feelings of the heart

They won't know good words they want

They search for a place of peace to place good
thoughts

Blessed unto the blessing of the strenght to shift the
dark yow

Over life will forever reign, yow

All trial and crosses me have to pass

Well then again

Repeat Sizzla's First verse
