Oh, ooh, I'm missing you, girl
I'm missing you

Dry cry, even tears
Even my heart cries, but who cares
Whose fault? No one but myself
Things do happen words can't explain

Beyond the human reasoning, joy mixed with pain
People would spend time just for us to separate
They don't want to see us reach nowhere
Oh girl, and you know I care

Why does it have to be this way?
Can't tell you go, can't tell you to stay
Just one of those days, just one of those days

Am I too humble or ignorant?
Things begun to fade, nothing seems important
Oh, my girl has left me and gone
Just don't want to see her in another arm

The essence of her beauty and her charm
The perfume still linger, oh damn
Remember girl, where we coming from, oh
I'm the one to whom you belong, whoa yeah

Girl, you keep me strong
You and you alone, no other one

Why does it have to be this way?
Can't tell you to go, can't tell you to stay
Just one of those days, just one of those days

It's looking to see her at my gate
Listening to hear the phone rings by the fire place
Now, somewhere out there is my girl
Now, where can I find her in this world?

Still not gonna break down nor be sad
Even though I'm stressed out, fed up and feeling mad
I just can't do without her, oh Jah

Still a man got to try

Why does it have to be this way?
Can't tell her to go, can't tell her to stay
Just one of those days, just one of those days

Is this happening for real?
Only if you know the vibes what I feel
Still trying to do my best and I still won't lose my
interest
My girl, I love you so, really hate to see you go

Why does it have to be this way?
Can't tell you go, can't tell you stay
Just one of those days, just one of those days

Dry cry, even tears
Even my heart cries but who cares
Whose fault? No one but myself
Things do happen words can't explain

Beyond the human reasoning, joy mixed with pain
People would spend time just for us to separate
Oh, they don't want for us to reach nowhere
Oh girl, you know I care

Oh, why does it have to be this way?
Can't tell her go, can't tell her to stay, oh
Just one of those days, just one of those days
