Ya, going up, ya, going up
You know how the good deeds
Good love, showing up

Move up, the youths them prospering and so what
Jah's got a lot for them that don't move up
The youths them prospering, try and know that
Jah's done a lock pon them that can't move up

The youths them prospering, so what
Jah's got a lot for them that can't move up
The youths them prospering, you better
Know that Jah's done a lot for them

Yes I do welcome, this generation
With vast education, steadfast for the nation
You might be thinking while you're in the situation
Lifetime opportunities, congratulations

Show love and unity, you give inspiration
And answers with the necessary information
About to live among ourselves in this civilization
Knowledge, woah, remove the frustration

Building a new way for the foundation
To the college, provide all His accommodations
Thanks for all your achievements
You made me strong, I sing my song

Move up, the youths them prospering and so what
Jah's done a lot for them and yo, move up
The youths them prospering just try know that
Jah's got a lot for them yo, move up

The youths them prospering and so what
Jah's got a lot for them, oh yeah, move up
The youths them prospering just try know that
Jah's done a lot for them

All your life you're going to fight the fightest
Don't wanna see the slightest change for bright ideas
Jah will help us if Babylon seems they're too strong for

us
Heaven and the earth, did build them for us

Ethiopia now stretch forth her arms for us
Crossing River Jordan for us
Preserving African motherland for us

Move up, the youths them prospering and so what
Jah's done a lot for them, a yeah, move up
The youths them prospering, so what
Jah's done a lot for them, woah, move up

The youths them prospering, so what
Jah's has done a lot for them, a yeah, move up
The children prospering, just try know that
Jah's done a lot for them

Oh, let me observe, mmm, I'm sailing like a bird, you
heard?
Jah protect and guide and keep us all preserved
You neglect us, reject us, and say we are dirt
Now we are surviving, you can't say a word

Give them a shield and armor, all properly gird, you
lickle nerd
We got the whole of the them just a turn
Blue for boys, pink for girls, girls to boys, boys to girls
Red, gold and green rule the world

Boy, move up, the youths them prospering, so what
Jah's done a lot for them, yeah, move up
The children prospering, just find their lot
Selassie I done a lot for them

Move up, the youths them prospering and so what
Jah's done a lot for them, a yeah, move up
The youths them prospering, just try know that
Jah's done a lot for them

Yes, I do welcome, this generation
With vast education, steadfast for the nation
You might be thinking while you're in the situation
Lifetime opportunity, congratulation

Show love, inspiration
And answers with the necessary information
About to live among within this civilization
Knowledge, remove out stress and frustration

School and college, got all His accommodation
Building a new way, for the foundation
