Black and beautiful mi hear the ghetto youths ah say
Now who goes hopping along the way, chasing you,

His Royal Majesty for the Black family

Where you go love will follow

Give your woman them liberty, thou art the trinity

Nyabinghi never you put them low

Check pon the load Black woman the cary

Babylon tek them outta them clothes through the

She ask me over night if she could hurry

Ah ganja mek me give the lady

Ah herb spread fi she cover up them baby

And while they sleep it seem as if she worry

By reason of the truth just let her free

In this time to say, some women done gone astray
you better plant good seeds now, for your reaping day
A woman like you (bounce)... I know you are blessed
Leave it to Jah and he will do the rest

Sizzla

Her hands stretch to Africa to uptime life

To the hustle to the bustle she overcome the strife

I know she overcome the strife, through them war
she never lose that righteous vibes
Children at her feet so she will have to abide
Emperor Selassie is so much dignified
Be not hypocrite amongst yourselves or else you no
rise
I tell you that your judgement is life
Oh oh this one is love forever more so reconcile
Me know this concious Black woman them love them
little child
Love forever more so reconcile, hail the princess of the
soil
Ah judgement me tell them love forever more so
reconcile,
hail all the woman of the soil
Again I say love forever more so reconcile
Me know this concious Black woman them love them
little child
Well check pon the load Black woman the cary
Babylon tek them outta them clothes through the
slavery
She ask me over night if she could hurry
Is ah ganja let me give the lady
Then the herb spread fi she cover up them baby
And while they sleep it seem as if she worry
By reason of the truth just let her free
21 days fi you purity....
