Huh, at this ah point in time I'd like to let you know
We give thanks and praise onto the most high Selassie
I
Whoa, cast away all your fears, yea
You don't worry let me see you wipe your tears
Yea you know I love you

CHORUS

All my Black people and all of my thugs
All you little children and those woman I love
They ain't gonna see us fall,
they ain't gonna see us fall
Share all my riches and sing for my fans,
love Mama Africa let me see your hands
They ain't gonna see us fall,
they ain't gonna see us fall

Plethoras of praise oh, they don't stop me
Wow with the youths that's where my stash be
Oh with the people that's where my cash be
Oh those pagan think they can get at me
Oh judgement we face them,
from they're pagans we got to erase them
Girls on the roof and the thugs in the basement
Playing music for the war love is the replacement

CHORUS

All my people and all of my thugs
and all those little children and girls I love
They ain't gonna see us fall,
they ain't gonna see us fall
Share all my riches and sing for my fans,
love Mama Africa let me see your hands
They ain't gonna see us fall,
they ain't gonna see us fall

Pray onto the most high he help me
I want to see all my people living wealthy
Take care of yourself and be healthy
Go to mount Zion I that's where your blessing be
Wow that's a bum,
Ethiopia Africa that's where we're from

Glad that my nation going strong you sing my song

CHORUS

All my people and all my thugs
All you little children all you woman Jah love
They ain't gonna see us fall,
they ain't gonna see us fall
Share all my riches and sing for my fans,
love my community let me see your hands
They ain't gonna see us fall,
they ain't gonna see us fall

Rastafari you're my tower of strength and every hour
that Jah sent
I take the time to pray and tell Him thanks within their
ends
The most high who had created the earth and the
heavens
Whoa no time to pretend tell yuh enemy tell yuh friend
World without end

CHORUS

All my people and all my thugs and
all those little children and girls I love
They ain't gonna see us fall,
Babylon ain't gonna see us fall
Sing for my people and my fans,
love my community glad I'm strong
They ain't gonna see us fall,
they ain't gonna see us fall

No way now way no way
they ain't gonna see us fall,
they ain't gonna see us fall
They ain't gonna see us fall,
they ain't gonna see us fall
