Ah, ah, beauty, absolutely  
Just the way she carry herself  
That's da real thing

Woman I need you, like never before  
African woman you're the one I adore  
I need you, like never before  
And when you're with me I feel so safe and secure

I need you, like never before  
I give you all I've got and I'm sure  
Woman I need you, like never before  
Whoa, oh aye

Listen Up  
Don't you matter what people might say  
Black woman you're my everything  
I need you girl every night and day  
To give you my love that's the very thing

So let us stay together, we can make things better  
Look at the joy we bring and life is what we'd prefer  
Goodness is what I'd rather to torn on the wings of  
wings  
Friends come and tell your words

Listen girlfriend I'm the one that you deserve  
So let me take you by your hands  
Both of us will walk this earth, love come first  
Don't you know what life really worth

I need you, like never before  
African woman you're the one I adore  
I need you, like never before  
Royal black woman she clean and pure

I need you, like never before  
Whoa, oh aye, aye  
Woman I need you  
Whoa, whoa, aye

And so I cast all wicked asunder

Cut off all fluttering lips and all teeth ah plunder  
Absence make the heart grow fonder  
Woman you'll increase my children in number

I need you, like never before  
Royal woman you're the one I adore  
I need you, like never before  
To Keep and care you I'm so sure

I need you, like never before  
Whoa, yeah, ah, ha

You're the one with whom I share my feelings  
I'll pick the flowers as they bloom  
I'll meet in your room with words of greetings  
Oh, love and honesty, baby girl there's no cheating

I'll give you perfect love and security  
Burn the hate and grudge that's ah surety  
You need my loving baby girl here it is  
Things we do bring me memories

Woman I need you, like never before  
African woman you're the one I adore  
I need you, like never before, oh yeah, Jah  
I need this girl like never before

Even though that I'm a rebel  
Black woman I say I'll make you comfortable  
Treat you right and I'll be so honorable  
This here lion ya is unconquerable, oh oh

Need my lovin' here it is girlfriend  
Things we do I say it bring me memories, whoa  
From the first day I met you
