Haven't I told you
Jah gone bless us, and make us strong
I trust that
We'll be there
Some day to come
I never doubted
I keep my faith all along
Good friend, I'm a servant
That's who I am

You deserve it! you surely deserve all the best
there is
Girl you're worth it! and I've got all the love to
give
You deserve it! girl you're worth all the care
there is
Girl you're worth it! and we all got all our life to
live

This is for you my dear! a blessing to show I
care!
This is for you my dear! loving to show I
care!

Come ease your burden, lime first babe
This is the time when my words, say
I love you oh yeah
Cause in record
Your presence
Was on my preference
Girl to make you glorious
In front of all your friends
You deserve it! surely deserve all the love there
is
Girl you're worth it! and I've got all the love to
give
You deserve it! girl you're worth, all the care and
cheer there is
Girl you're worth it! and we all got all our life to
live
This is for you my dear! to show you how much I
care

This is for you my dear
care
I always need you in my eyes
I'm not like the system
Who want to squeeze you out
Nothing I do won't leave you out

You know, you know, you know, you know
Oh, we both can achieve
Nothing is too hard to over come
Knowledge you perceive is like the shining sun

This is for you my dear
care
Haven't I told you
Jah gone bless us, and make us strong
I trust that you gone be there
Some day to come
I never doubted
I keep my faith all along
Good Friend, I'm a servant
That's who I am
You deserve it surely deserve all the best there
is
Girl you're worth it and I've got all the love to
give
Girl yeah yeah yeah
