Yow! A boom tune!
Oh yeah! Sizzla Kolonji shout

Girl you gonna need my love
Girl you gonna need my joy
A lot of love I've got inside my heart
Can't be destroyed

I know you gonna need my love
Girl you gonna need my joy
Now move up! The youths dem prospering and so what
Jahs has done a lot for them, yeah move up
The youths prospering, just find their lot
Jahs has done a lot for them
Yes I do welcome, this generation
With vast education, steadfast for the nation
Now you might be thinking why are you in such
situation
Life have opportunity? Congratulations.
Show love. Inspiration.
And answers with the necessary information.
About livin within this civilization
Knowledge removes all stress and frustration
School and college, got to part of the accommodations
Building a new way, good foundation
Stand strong on your achievements,
Jah make me so strong, I got to sing your song

Move up! The youths dem prospering just try know that
Jahs done a lot for them, yeah move up
The youths dem prospering try know that
Jahs done a lot for them
Woah move up!
Organize we gonna shine the brightest
Know that is Selassie-I shining so brightly
Jah will help us if Babylon think dem too strong for us
Heaven and the earth oh it belong to us
Ethiopia open and stretch forth her hands to us
