Fade, you fade out tonight
Taking me to that place, each and every time
The memories call, like a voice in the air

And every time I hear it I see you again
Always out of reach, cause you're only in my head

Bare feet sunning on the dashboard
Hearts racing on the back roads
I got pictures of you in my mind
Killing my slowly that you're not around
Heart feeling like a ghost town
I've got pictures of you in my mind

I wonder where you are tonight
Do the tears still fall? Am I kept out of sight?

When I'm dreaming I run, run, run to be with you again
But you're always out of reach cause it's only in my
head

Bare feet sunning on the dashboard
Hearts racing on the back roads
I got pictures of you in my mind
Killing my slowly that you're not around
Heart feeling like a ghost town
I've got pictures of you in my mind

How did I get feeling so low?
The pictures fade but they won't let me go

Bare feet sunning on the dashboard
Hearts racing on the back roads
I got pictures of you in my mind
Killing my slowly that you're not around
Heart feeling like a ghost town
I've got pictures of you in my mind
