(v1) The world turns, time stands still
Tides wash in, tides crawl out
Lie awake, exhausted
Sun comes up, lights go out
(ch) never say a word to break the silence
I Might, I Could; Not Say A Word
Never say a word to break the silence
I Might, I Could; Break The Silence
(v2) The needle slides through the groove,
the record comes back to you
I find myself back here soon,
like the swallows return to Capistrano
(chorus)
(B.D.) Shatter The Silence
(bridge)
Id like to stay and talk longer,
but you say you have to go
Ill be here a year from now,
too afraid to leave the home
Id like to stay and talk longer,
but you say you have to go
Look us up when you get to town,
but for now we got to Go.
(B.D. 2) Break The Silence
