Cost of the Cause
A new plan, a call for change
One hundred times its all the same
Revolution in the mist
Open minds with clenched fists
Empty slogans from empty minds
Look around and youll find (that)
What you live for, is what you die for
What you believe in, is what you fight for
Live, Die, Believe, Fight
I cant figure out what you're trying to do
have you got a vendetta or something to prove
Political agenda fulfilled by greed
Poisoned crop from poisoned seed
You got your truth and Ive got mine
You got your friends but you got no spine
What you live for, is what you die for
What you believe in, is what you fight for
Live, Die, Believe, Fight
When it all comes down, what do you got
When it all comes down, what will you do
When it all comes down, what will you say
Who was right and what is true
When will you have had enough
When will you be satisfied
When will this war be over
When will you open up your eyes
