I watched the moon shine for hours
And I can still hear her cry
As her heart lies broken
I've still got my pride

Now we've had our last dance
You know it's sad but true
And if it don't make you stronger
It might make you blue

Chorus:
Now this is over
You know it's sad but true
We had so far to go
And so much to lose

We used to stay up talking
In the middle of the night
Till the sun come around
Looking to fight

We'd smoke cigarettes for breakfast
We'd drink coffee at dawn
We had it so perfect
Before we learned to get it wrong

Chorus

Now we've had our last dance
We've dried all our tears
And you can chalk up this last chance
To our lack of years

Chorus
