It flashes suddenly like lightning, there is the path  
where a miracle passed, don't let it get away.  
You need to be sober in business, but keep yourself  
high, don't let down your dream, but never  
choose to live with your dream.  
Stop your idle prattle, don't waste your time, stay calm  
and dance on the wind.  
Funk is an aesthetic for those who make moves, there's  
only one chance for the 101th among 100.  
This scene where the soot of pressure chokes you, no  
matter how fast you move, the calendar never moves  
backwards.  
Remember the days of hardship and humiliation, fully  
peonged attack 'cause this may be your only chance.  
Those who can bare the next era have gathered, no  
wonder this place has such rousing heat.  
Adieu, your turn now, I'll be watching you BROTHER to  
see if you shine.  
When I compare myself to you when I was your age, I  
was not able to see all the possibilities you  
are seeing now.  
I say fortunate and fame are shady, i'll teach you what  
that means when you grow up and catch me up.

The plan you have told me about triumphantly, is like a  
sickly sweet pie.  
I know you are afraid of dark places, I'm sorry but I  
can't waste my time any longer with your  
cheap sense of solidarity.  
A true brother who cn deal with me one-on-one, is  
somebody who is always at the forefront of  
advancement.  
If you wish to be protected from degenerating  
seasons, spend a little time alone in silence.  
Use your head, how many cards do we hold against  
our chests? Constatly think that your opponent  
has one more.  
There's the possibility of failure in everything, but don't  
you worry, just remember to keep your  
head down when you succeed.  
The two from "CHOP" are the most successful from the

class of Sapporo46, who forcibly got themselves  
out of living from hand to mouth.  
"STRAIGHT UP" proved to have clairvoyance, BIG UP to  
Hokkaido, WE ARE THE GOLD DIGGERS.  
'Cause we are from the same generation, we see  
clearly that our competitive spirit swallows up  
jealousies and greed.  
In high speed, a dead heat of passing and getting  
passed, let us be like this forever.

There were many nights that are remembered as  
legendary, "WONDER" and "PRECIOUS" with only the  
regulars staying on.  
"SOUL COP", "AL'S BAR". "GHETTO" and "WALL", they  
have all but buried Sapporo's solid gold pride.  
Consequently, all the radio stations in town, never had  
understanding only collusion.  
Martyr-like pioneers have discovered their values in an  
early morning session in the basement.  
Continuation, is just another form of battle, I learned  
that lesson from "OLD CROW" and "LONG RUN BOXER".  
And the "BOURBON BROTHERS" of nightly OVERDOSE, a  
toast at 10 in the morning is not unusual here.  
The men who live with a spirit of chivalry instead of  
profit, will be talked-about for generations,  
respectable big shots.  
Let me dance on top of your isolator, and proudly  
introduce myself as Sapporo's new face.  
At least until I grow up to be your age, there is no  
excuse for us to stop here.  
The field that they once cultivated, has spread all over  
the world, and now BLUE bloom.
