Artist: Clover Black
Album: CB.VV
Title: Arch Angel

It's that escalator music
It's that escalator music
Yeah word up
C.B.V.V.
Venomous Volume
Mother fucker
Two V's when you spell it
Remember that
Aight

Both heaven and hell balanced
They bred an arch angel
Good intention with bad action
The thoughts tangled
A prophetic prosperous
Powerful One
Hearts wretched with pure spirit
In walks to come
I'm fighting darkness
Fighting hardships to find success
Overcoming the odds
And wont settle for less
Positive as negative
Emotions left with sedatives
Too many antipsychotics
Done with their medicine

Feel like a cry but not one that comes from my eyes
It's like my soul radiates light that come from the sky
I don't run in my nightmares fight monsters I fight fear
Right here and win though they never will fight fair
Never give up I always finish my chin ups
If I break both legs and can't get up I'll sit up
Even if it means I gotta walk on my hands
I'm a find a way out if it's not in the plan

Both heaven and hell balanced

They bred an arch angel
Good intention with bad action
The thoughts tangled
A prophetic prosperous
Powerful One
Hearts wretched with pure spirit
In walks to come
I'm fighting darkness
Fighting hardships to find success
Overcoming the odds
And wont settle for less
Positive as negative
Emotions left with sedatives
Too many antipsychotics
Done with their medicine

Feel like a cry but not one that comes from my eyes
It's like my soul radiates light that come from the sky
I don't run in my nightmares fight monsters I fight fear
Right here and win though they never will fight fair
Never give up I always finish my chin ups
If I break both legs and can't get up I'll sit up
Even if it means I gotta walk on my hands
I'm a find a way out if it's not in the plan

2x
Both heaven and hell balanced
They bred an arch angel
Good intention with bad action
The thoughts tangled
A prophetic prosperous
Powerful One
Hearts wretched with pure spirit
In walks to come
I'm fighting darkness
Fighting hardships to find success
Overcoming the odds
And wont settle for less
Positive as negative
Emotions left with sedatives
Too many antipsychotics
Done with their medicine
